

PRESS RELEASE

Oliveira de Frades, December 21, 2015

MARTIFER SOLAR SPAIN ADDS 31 MW TO ITS SPANISH O&M PORTFOLIO

- Martifer Solar Spain has signed a number of new O&M contracts of 31 MW to supervise and provide O&M services for the companies Eland Private Equity and European Energy in Spain
- The 7 PV plants were installed on the ground, with fix structure, one and two axis trackers systems, and are located in the Centre and South East regions of the country

Martifer Solar, a subsidiary of Martifer SGPS, has added 7 PV ground plants in a total of 31 MW of new third party O&M contracts to its portfolio in Spain. The plants are located in the Centre and South East of Spain and are being supervised and provided O&M Services for the companies Eland Private Equity and European Energy.

Miguel Domenech, Corporate Strategy Director of Eland Private Equity, said, "Martifer has proven to be a committed and reliable O&M partner, with a very motivated and communicative team, always well aligned with the clients' interests".

With these new contracts, Martifer Solar has achieved a track record of more than 100 MW in O&M Service in Spain. Operating in more than 20 countries around the world, the company provides its clients a complete O&M service to maximize the performance ratio of its PV installations, providing reference quality services.

José María Guinea, O&M Director of Martifer Solar Europe, said, "This is very important milestone for our company, with these new contracts, we enhance our presence in Spain continuing in our sustainable growth in Europe".

Recently awarded with the INTEGRATED O&M SOLAR ASSET MANAGEMENT AWARD, from the Solar Industry Awards 2015, the O&M Service counts with a committed, capable and specialized team.

"These new contracts means another important step towards the goal of duplicate our O&M portfolio in this business and is in line with our future global strategy of providing O&M Services worldwide", said Henrique Rodrigues, CEO of Martifer Solar.

ABOUT MARTIFER SOLAR

Martifer Solar is a fully integrated player in the global PV market, focused on the development of photovoltaic projects, EPC and O&M services.

The company is based in Portugal and has presence in Europe (Spain, Italy, Belgium, France, Czech Republic, Slovakia, UK, Romania and Ukraine), North America and Latin America (Canada, Mexico, El Salvador, Chile and Brazil), Africa (Mozambique and South Africa) and Asia (India, UAE, Singapore and Japan).

The company has implemented more than 670 MW of photovoltaic energy worldwide, and manages more than 600MW in O&M Service.

Martifer Solar is part of the Martifer Group, a multinational industrial group with about 3,000 employees focused on metallic constructions and solar energy. Martifer SGPS, SA is the parent company of the Group and is listed on Euronext Lisbon since June 2007.
